Richmond, BC – Academy Award winner Jamie Foxx has taken to the stage on a 50-city North American tour which began in Las Vegas on July 3rd. After a continuation of a busy movie career, Foxx released his chart-topping CD, *Intuition* last December debuting at #3 on the Billboard 200 chart. The album's first single, "She Got Her Own" rose to #2 on the Billboard Hot R&B/Hip-Hop chart while the second single, "Blame It" hit #1 on the Billboard Hot R&B/Hip-Hop chart. The album which has since been certified Platinum also features an impressive list of artists including T.I., Lil Wayne, The-Dream, Ne-Yo and Kanye West.

Foxx's album was just one taste of his recent unprecedented accomplishments. In addition to winning the Academy Award as Best Actor in 2005 for his career-defining performance in *Ray*, he was nominated in the Best Supporting Actor category for his role in *Collateral* making him just the second male actor who received nominations for two different films in the same year. Those roles in conjunction with his acclaimed turn in the FX Network's *Redemption* led to him being the first person ever nominated for three acting awards at the Golden Globes and four SAG Awards in one year.

Foxx is quick to point out that music isn't just a sideline to his history-making acting career. "I've been working on music for the last fifteen years," he says. "I don't do nothing sideways. If I'm gonna get it, I'm gonna get it 100 percent." The Texas-born former star of FOX's *In Living Color* and the WB's *The Jamie Foxx Show* notes that the artists he worked with on his album all share a drive and passion he was able to relate to and learn from. For now, Jamie Foxx will complete his "Blame It Tour" in Los Angeles on October 17th which will include a one-night musical performance at the River Rock Casino Resort on October 7th.
