SATURDAY, MAY 29 – RIVER ROCK SHOW THEATRE

In a show that The Denver Post calls “the next best thing to seeing The Beatles,” RAIN – The Beatles Experience boasts a repertoire of such Beatlemania favourites as “Yesterday” and “Hey Jude” to classic hits including “Revolution” and “Come Together.”

RAIN covers the Fab Four from their very first appearance on *The Ed Sullivan Show* through the Sgt. Pepper era on to the Abbey Road years and their long-haired, hard-rocking rooftop days. It’s a multimedia, multi-dimensional experience featuring a fusion of historical footage and hilarious television commercials from the psychedelic 60’s lighting up the video screens and cameras zooming in for live close-ups.

For the longtime band members, it’s the music that remains first and foremost. Like The Beatles, the onstage members of RAIN are not only supreme musicians but electrifying performers in their own right. Legendary impresario Sid Bernstein – the man who brought The Beatles to North America – raves, “For those of you who were lucky enough to see The Beatles live, this is a tremendous opportunity to relive that time. For those who haven’t, welcome to RAIN!”
